

Total Integration = Musical Creativity

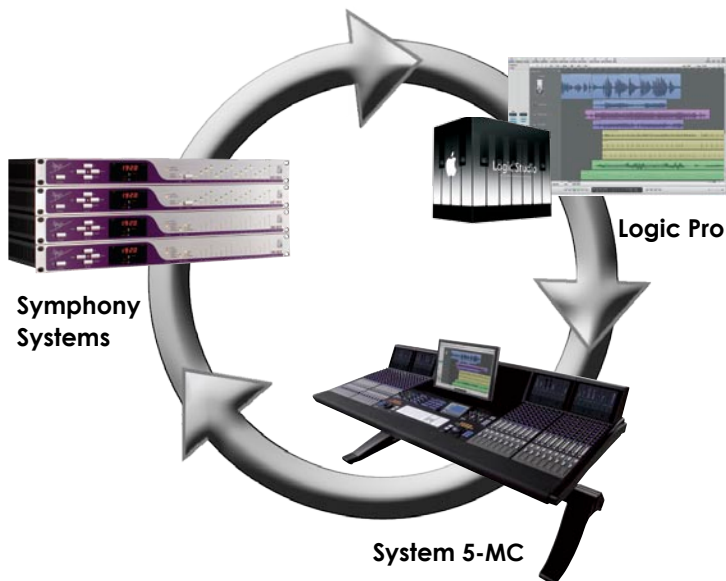

Vincent di Pasquale - Producer, Artist & Remixer

Recent Projects:

Madonna's *Hard Candy* "4 minutes (rebirth remix)"

"The System 5-MC and Logic Pro work together as one and I get to choose my favorite Apogee converters. It's all one integrated tool. So for me it's fast, it's flexible, it's fun to work on and it really has taken Logic Pro to a whole new level."

Power Trio

Apogee, Apple and Euphonix, have joined together to form a Power Trio of creative solutions for music composing, recording, editing and mixing. From the new Artist Series to the largest System 5-MC and System 5 music and film dubbing consoles, Apple's Logic Pro and Apogee's audio interfaces now totally integrate with Euphonix' entire range of DAW controllers and mixing consoles. Euphonix high-speed Ethernet EuCon™ control protocol is now built into Logic Pro and Apogee's Maestro software giving Euphonix control surfaces unrivalled access to these software applications.
